- English
- Bahasa Indonesia

## Hobbies

- Sketching
- Basketball

## Summary

I'm a first child from three siblings, trained independent. I prefer to lead than be a boss, so i often do lot of my team task. Furthermore, it's hard for me to rebuke my team, i prefer to wait for them to realize it alone. I take full responsibility of my task, i will always finish it on time, because i perfectly aware of my limit. I can consider risk and advantage, so i never regret for what I've done.

## Skill Highlights
